**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 17,19,20,21, 24 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leys et al (US 2002/0036017) in view of McPeak et al (USPN 6880808) as set forth in the Office action mailed 11/18/09.
3. Applicant's arguments filed 5/7/10 have been fully considered but they are not persuasive. Applicant argues that McPeak does not support the obviousness of substituting PEEK for the PAEK as claimed because McPeak does not teach using PAEK for molding "a valve stem that has enough mechanical and /or thermal stress resistance to withstand *use as a metering valve...*[s]uch stresses may be imparted by the repeated lateral movement of these elements together as a single unit...and in order to provide *adequate chemical and/or mechanical bonding*" See page 5 of applicant's remarks filed on 5/7/10; emphasis added. Applicant's arguments are misplaced at this time because they center on limitations not found in the claimed invention. Since the claimed invention does not include the argued limitations, the substitutability of PAEK for PEEK as taught by McPeak satisfies the claimed materials for the stem absent from Leys et al. The above prior art rejection establishes a prima facie case of obviousness over the *claimed* invention.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following teach the state of the art: 5456830; 5772085; 2002/0190085.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to EDMUND H. LEE whose telephone number is 571.272.1204. The examiner can normally be reached on MONDAY-THURSDAY FROM 9AM-4PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on 571.272.1316. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
